Gentlemen:

RE: ML 45866-Volcanic Materials; Lease 1 Proposed Mine Site

The State Historic Preservation Officer advises that there is a potential for historic properties within the above referenced site. As Lessee, you are hereby required to have the site surveyed for cultural resources by a qualified archaeological contractor prior to approval by the division of your plan of operations.

The required archaeological survey must be performed by a qualified consultant, at Lessee's own expense. A copy of the survey must be submitted to the division for review. I am enclosing a list of qualified consultants. If you select a consultant not on this list you should first contact the division regarding acceptability.

Sincerely,

JOHN T. BLAKE  
MINERAL RESOURCES SPECIALIST
